PRESS
Starting engine / hybrid system if the electronic key does not operate properly
1. Turn the vehicle power switch to ACCESSORY or ON mode.
2. Touch the key close to the engine start stop switch.
3. Press the engine start stop switch while depressing the brake pedal.
Stopping engine / hybrid system in an emergency
• If you need to stop the engine / hybrid system in an emergency, you can stop the engine / hybrid system by holding the engine start stop switch for more than 2 seconds, or press and hold it 4 times or more in succession.
• See the Owner's Manual for further details.
